

Portable Precision Balances Perfect for Classroom Use

Designed for education applications, the OHAUS Scout SKX with large backlit LCD backed by education software is the ideal balance for your classroom. It is built to endure demanding classroom applications with superior overload protection. Features including, faster stabilization time, increased capacity, multiple connectivity options and stackable design make Scout SKX the best weighing experience for the next generation classroom.

Standard Features:

- Space-saving design allows for stackable storage (excluding the 1 mg model).
- Integrated overload protection system rated at ten times the capacity protects the balance in demanding classroom environments.
- Large backlit display improves readability in low-light conditions and makes it easier to view results from across a desk or lab bench. Multiple connectivity options for data collection and transfer.

SCOUT® SKX Portable Balances

Scout can Handle Demanding Classroom Environments

The superior mechanical overload protection system of the Scout is comprised of a high-strength stainless steel pan and an impact-resistant plastic pan support. This enables the balance to safely withstand loads up to 10 times its rated capacity, and survive in demanding classroom environments where capacity may be frequently exceeded. Scout's unique stacking and storage cover allows the balance to be safely stored away when not in use. The integrated transportation lock protects the load cell from damage during stacking storage and transportation.

User-Friendly Experience Guaranteed with Backlit Display and 4-Button Operation

Four clearly marked buttons remove complexity, and guide you quickly and easily through balance setup, unit of measure changes, calibration and more. Poor lighting in the lab or classroom is not an issue with the Scout. The large, bright backlit LCD display improves readability in conditions where lighting is poor, and makes it easy to see the weighing results from a distance.

Expanded Connectivity Options Allow for a More Modern Weighing Experience

Scout has multiple connectivity options—RS232, USB Host, USB Device and Ethernet. With expanded connectivity options, the OHAUS Scout offers more versatility for convenient data logging and communication. With the USB Host option, you can simply save and transfer data from the balance to a USB drive.

Backed by Education Specific Software

It's all about accuracy and efficiency with the OHAUS Scout balance. Stabilization time as fast as one second combined with high resolution deliver extremely precise and repeatable weighing results that you can count on time and time again. This makes the Scout ideal for routine experiments and other weighing applications in your classroom.

Draftshield Model Available

Scout's ingenious draftshield (1mg model only) was designed with an easy to remove top cover piece. This serves as a wind protection ring which keeps the weighing surface stable in rough environments, while maintaining weighing speed.

Stackable Design
Space-saving design allows for stackable storage (excludes mg models).

Connectivity
Expanded connectivity options including RS232, USB Host, USB Device, Ethernet

Weigh Below Hook
The integrated weigh below hook on the bottom of the Scout allows for density determination or specific gravity calculations

Security Slot
Integrated security slot prevents theft

Large Backlit LCD Display
High contrast LCD Display displays weight and application data clearly, even in poor lighting conditions

Lockswitch
The Scout can be locked into a specific configuration using the lockswitch

Stabilization Time (s)	1.5	1	1	1	1.5	1.5	1	1	1	1	1
Construction	ABS housing & stainless steel pan										
Draftshield	Yes	No									
Calibration	User-selectable external span or linearity calibration/Digital with external weight										
Tare Range	Full capacity by subtraction										
Weighing Units	g, kg, N, oz, lb, lb:oz										
Application Modes	Weighing, Density Determination, Mole Weighing										
Power Requirement	AC adapter (included) or 4 AA batteries (not included)										
Typical Battery Life (Hours)	80	120	80				120			80	120
Communication	RS232, USB Host, USB Device, Ethernet (available as an accessory)										
Display Type	Liquid crystal display (LCD) with backlight										
Display Size	0.78 in/20 mm digits										
Overload Capacity	10 times the rated capacity										
Operating Temperature Range	10°C / 50°F to 40°C / 104°F at 10% to 80% relative humidity, non-condensing										
Storage Conditions	-20°C (-4°F) to 55°C (131°F) at 10% to 90% relative humidity, non-condensing										
Pan Size (W × D)	Ø3.7 in/ 93 mm	Ø4.7 in/ 120 mm		6.7 × 5.5 in/ 170 × 140 mm		Ø4.7 in/ 120 mm	6.7 × 5.5 in/ 170 × 140 mm				
Balance Dimensions (W × D × H)	8 × 8.7 × 4.1 in/ 202 × 222 × 103 mm		8 × 8.8 × 2.1 in/ 202 × 224 × 54 mm								
Shipping Dimensions (W × D × H)	11.8 × 9.8 × 5.1 in/300 × 250 × 129 mm										
Net Weight	2.2 lb/1 kg										
Shipping Weight	3.5 lb/1.6 kg										

* Span calibration weight is included with models up to 620g capacity.

Other Standard Features and Equipment

Transportation lock, stainless steel pan, menu & calibration lockout switch, mechanical and software overload/underload protection, stability indicator, auto tare, low battery indicator, auto shut-off, user selectable printing options, user-selectable communication settings

Compliance

- **Product Safety:** IEC/EN 61010-1; CAN/CSA C22.2 No. 61010-1; UL Std. No. 61010-1
- **Electromagnetic Compatibility:** IEC/EN 61326-1 Class B; FCC Part 15 Class B; Industry Canada ICES-003 Class B

Accessories

RS232 Interface Kit	30268982
USB Host Interface Kit	30268983
USB Device Interface Kit	30268984
Ethernet Interface Kit	30268986
Stacking & Storage Cover** (6 pcs)	30268987
Stacking & Storage Cover** (1 pc)	30268988
Printer, Impact, SF40A, AM	30064203
Auxiliary Display	30472063
Security Device	80850043
Top Loading Kit for Density Determination	30269020
Carrying Case	30269021
In-use Cover	30269022

**Not fit for models with draftshield
